

## Broughton Primary School, New Nursery. Interior Design Engagement.

We are pleased to announce that our new nursery building is going ahead and the interior design team would like your ideas on a mood board.

Your mood board can be created using

- The template provided
- Real objects, gathered on a walk
- Drawings
- The computer

You need to create a mood board with all your ideas.

- Room names for 4 playrooms (a clear theme, linking room names).
- Colours (colour can create a different mood and feel. You can also use fabric swatches, colour cards or physical stuff that symbolise colours).

We would like the nursery to be special to Broughton. Use the local area and environment for your ideas:

Water of Leith  
Parks  
Fire Station  
Bus depot

Cycle paths  
Allotments  
Library

We will share your ideas with the design team. You need to post your completed ideas in the box at the school entrance or email them to
