Improvement Priority 1

To ensure children are making very good progress in Maths and Numeracy.

Our Self Evaluation has highlighted we need to :

- Develop staff knowledge and understanding of the progression of children's learning in maths and numeracy
- Improve our interactions, experiences and spaces to support maths and numeracy
- Have more focussed observations that show progression in children's learning in maths and numeracy
- Develop staff's confidence to identify appropriate next steps for children in maths and numeracy

Improvement Priority 2

To improve inclusion for all with a focus on our families being meaningfully engaged in their children's learning and the life of the nursery.

Our Self Evaluation has highlighted we need to :

- Improve our responsive planning to ensure we are responding to all children's interests over time
- Ensure that information is accessible to all families in different formats of communication and languages
- Improve consistency in capturing learning across all children and in a timely manner
- Use and analyse information available to us to improve outcomes for our children and families
